

Master

Slitter with separate
unwinding station

High performance slitter-rewinders
for flexible materials

Master - slitter with separate unwinding station

Master slitter is the result of continuous innovation process which is the answer to the growing demand for optimal slitting process. The technologically advanced control systems and an ergonomic design make Master slitter the ideal solution for a high performance slitting of various flexible materials.

Web width	Diameter of the reel on unwind	Diameter of the reel on rewind	Maximum speed
1000mm	1300mm	600mm/800mm as option	600m/min
1300mm	1300mm	600mm/800mm as option	600m/min
1600mm	1300mm	600mm/800mm as option	600m/min
1850mm	1300mm	600mm/800mm as option	600m/min
2000mm	1300mm	600mm/800mm as option	500m/min
2200mm	1300mm	600mm/800mm as option	500m/min

Example of materials: printed / unprinted foil (PE,PP,PA,PS,PET and others), metalised films, hot stamping foil, laminates, labelstock film, paper.
